REVIEW SHIPPING MARKETS, THE NEWS REAL ESTATE Business. AND

REVEIW OF MARKETS

New York, April 10.—Interest in stock speculation to-day was on a diminished scale, the dealings aggregating little over a half a million shares. Prices moved in an uncertain manner and a number of marked net losses resulted. There was a decline at the opening, in which the specialties particularly participated, a midday rally led by the Vanderbilts, and an afternoon decline in which the Grangers were prominent. The liquidation of Friday permitted a number of brokers to return borrowed money and call rates were generally easier, 6 to 7 per cent. prevailing the greater part of the day. Several million dollars of sterling loans were made and call money closed 364 per cent. Foreign bankers apparently assumed that comparatively good prices were probable here for money for a more or less protracted period. These sterling loans were responsible for an easier tone in the Sterling Exchange market. The recurrence of syndicate operations and the floation of industrials is the basis for the expectation of fair rates at least for money.

and the flotation of industrials is the basis for the expectation of fair rates at least for money.

This week \$25,000,000 approximately is to be called in connection with the flotation of the American Pump Company, the Chicago and Alton syndicate deal and subscription payment in Manhattan, while the call for subscriptions, involving several million deliars on the steel hoop combination, has been postponed. Commission house business fell off considerably, but there was evidence of an effort to stimulate interest in the market in some specialties again, now that Friday's decline had wiped out weak holdings. Some large accounts were closed out to-day, causing the early decline. One block of 15,000 shares of Brooklyn Transit was sold just after the opening. The Vanderbilis, which all advanced smartly, retained part of their rise. Gossip about subscription privileges advanced Great Northern preferred. Consolidated Gas broke 8 points, presumably because of the published interview with a prominent politician favoring municipal ownership of that industry. The selling of the Grangers in the afternoon was due to apprehension as to the possible character of the government crop statement to be made known this afternoon. The market closed steady.

Transactions in railway mortgages were rather light, and while the market lacked a decided tone, the changes either way were only fractional. Total sales, \$2,265,000.

either way were only fractional. Total sales, \$2.265,000.
United States 5's declined 1/4c. and the new 4's, coupon, 1/4c. in the bid price.
The total sales of stocks amounted to 557,110 subserve.

The Cotton Markets.

NEW YORK COTTON MARKET.

NEW YORK COTTON MARKET.

New York, April 16.—The cotton market made a barely steady start, the first call trading was at unchanged prices to a decline of 3 points, the weakness being due to unsatisfactory cables. Immediately after the call, however, there was a sharp rally of 3@ 4 points, started by brisk buying by houses with foreign connections, stimulated by reports of heavy to killing frosts in the Atlantic sections. This also started demand from local shorts. July and August buying by houses with New Orleans connections was also a feature of the early market. Before noon, however, prices had receded to about the opening call basis and trading became very slack. There was considerable disappointment regarding the volume of outside speculation in view of the contradictory and unsatisfactory character of the weather and crop accounts from the South. The buil interest was without a leader, and the bear contingent distrusted their position while showing dispatches to prove that cotton planting was making seasonable progress on the average. During the afternoon speculative dealings became very narrow, with a gradual leakage of long cotton, giving a rather weak undertone to the local situation. The market was finally quiet at a net loss of 2@3 points.
